

Dockets Management Branch (HFA-305)

Docket No. 98N-1265, 3080 '99 APR -5 AIO :54

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

RECEIVED MAY 1994

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Frances Anderson

Date

COMMENTS: *There is no justification for limiting my ability to obtain a prescription that treats my symptoms - so what if it needs to be mailed to another state?? If a prescription that met my needs was available from one of the big pharmaceutical companies, I'd buy it. However, the big companies don't and can't formulate small prescriptions for just a few patients. With this new limitation, I will be left with nothing. My prescription is prescribed by a physician at UCSF, one of the foremost experts in the country in hormonal treatments. If she thinks this version of the drug is needed, then I'm sure it is! Please don't enforce this restriction.*

Please fold, seal, and mail by March 22

Sincerely, C 772
